Winning in the Public Sector

So much is at stake for all parties to a government contract. Government wants the best goods and services at the best value to the taxpayer. Suppliers want clear requirements, a fair chance to showcase their strengths, and room to deliver sound financial performance. Add to that the fact that government purchasing of goods and services is currently undergoing significant change, and the public sector can seem like a tough place to be looking for business to capture.

Dave Folts

At the next meeting of the Greater Houston Chapter of the Association for Proposal Management Professionals (APMP), Wednesday, October 7, Dave Folts' discussion will focus on winning business and partnering with government—a potentially daunting proposition. You will gain a perspective on the lessons behind some of the fundamental aspects of winning government business. Mr. Folts, a Vice President of Competition Manage-

Printer Jams with Specialty Paper or Labels?

By David Wallis

One thing many people do not know about office printers is that it often matters that you select the correct paper type. For example, if you print on heavy paper, labels, or oversize paper, selecting the applicable paper type in the print properties dialog may actually

trigger the machine to handle the paper differently. This is because the mechanism used to feed the paper through the printer may be different from what is used for plain paper. If you were to feed heavy paper without changing this option, there's a good chance it will jam as a result.

David Wallis is a senior proposal manager for [Halliburton's](#) Global Business and Technical Solutions team. He has created and regularly delivers proposal training throughout Halliburton. He has more than 10 years of experience with large oilfield services tenders and is a member of APMP's Houston Chapter. ■

From the Prez: Take Care of You

Recently I fell into a trap that is common in our profession. I went home sick with the flu and did not insist that someone else take over my proposal or to take the proposal down the "off" ramp. Instead, I continued to work on the proposal from home. It got done, but it wasn't as good as it could have been. I was lucky in that I was out for only one more day.

When you are "passionate about proposals" as the Proposal Guys say, it is hard sometimes to let something go to take care of ourselves. We work too many long hours, we don't take enough breaks, and we don't eat right. This can be a real problem if you work for a small proposal center. I know from my

experience the challenge to maintain balance between work and personal well-being. But this flu season is going to be particularly a strong one and for the sake of our family and ourselves, and we need to speak up when appropriate. By not doing so, we can impact our work and families even more. So don't fall into the sick trap like I did—take care of you.

See you soon!
